

*The Jewish Shamanic Wisdom Series Continues with...*

## **Great Mother**

*A Daring Journey into One of the Most Ineffable Realms*

*of Ancient Jewish Mystery Wisdom*

אימא עלאה

אימא דכולא אם כל חי

The notion or image of God as Mother is endemic to Judaism at its very roots rather than a belated New-Agey addendum to help us “fit in” with the spiritual rage of the day. Our ancient wisdom tradition nonchalantly and quite comfortably feminizes the Divine Persona and Intent in both language and imagery, even attributing such to the very attribute by which the universe was created and perpetuates. The inspiring and soul-stirring teachings around *Great Mother* in the Jewish tradition has for far too long been sorely misrepresented and heavily draped in metaphor, muffling the very Voice that called all existence into becoming. As we peel off the layers in this important series, it is our hope that existence will take on a deeper and more enriching meaning for all.

“Whenever a similar mythic motif was found in the literature of some other people of Asia Minor, that motif was designated the original one and the Jewish motif was called a poor imitation; and if none was found, it was simply assumed that the original had been lost...the whole concept of history that made [this] possible is a monstrous fallacy.” -- *Martin Buber*
